SKETCHUP PRO TRAINING COURSE

Original Fees: Rs. ~~19,550~~ **15,550** only "Limited Offer"
Duration: 2 Months

Create 3D Models

Using **SketchUp** Pro, you can create 3D models, either by starting from scratch or by using existing data. Import drawings, CAD plans, photos, aerial imagery and other information, then use the modelling tools in **SketchUp** Pro to develop your ideas into 3D.

SketchUp Pro is the easiest way to build, analyze or present in 3D!
- Communicate with everyone on the project
- Win more jobs with impressive marketing collateral
- Generate clear, visual RFI graphics
- Model details to clarify complex conditions
- Produce site logistics plans
- Create dimensionally accurate, highly-detailed 3D models
- No extensive training required
- Import and export CAD and other types of data
- Create project sequencing animations
